

KingProof[®] B25

Water based rubberized bitumen coating.

DESCRIPTION

KingProof B25 is a black/brown emulsified cold applied bitumen liquid reinforced with rubber, acting as damp-proof, vapour barrier for concrete and masonry, and as a general purpose primer for bituminous membranes.

APPLICATIONS

KingProof B25 provides a vapour barrier, protective coating, and curing compound for:

- ☐ Underground concrete foundations.
- ☐ Concrete and masonry block walls.
- ☐ Walls below cladding systems.
- ☐ Concrete slabs.
- ☐ Basement walls.
- ☐ Works as a primer for concrete, masonry surfaces, before applying waterproofing bituminous membranes.

ADVANTAGES

- ☐ Resists attack by chlorides and sulphate ions present in ground water.
- ☐ Easy to use.
- ☐ Economical.
- ☐ Water base, has no solvents.
- ☐ Does not rot.

STANDARDS

KingProof B25 complies with ASTM D1227-95, Type II, Class 2.

METHOD OF USE

Surface Preparation

Surface preparation is very important to get the highest performance of KingProof B25. Any surface to be coated must be clean, sound and free of oil or grease. Any oil or grease contamination should be removed with a chemical degreaser.

All holes should be filled with a suitable cementitious mortar before application of KingProof B25.

APPLICATION

It is recommended that two coats of KingProof B25 be applied. The second coat should be applied at right angle to the first coat. Allow a minimum of 2 hours between coats. Stir well before use.

TECHNICAL PROPERTIES @ 25° C

Form	Liquid
Density	1.05 ± 0.05 g/cm ³
Over coating time	8 hr
Application temperature	5 - 45° C
Dry time:	2 - 4 hr
VOC	< 40 gr/ ltr

When used as a general purpose primer for bituminous membranes, apply KingProof B25 in one coat at a rate of approximately 5 m²/litre.

KingProof B25 may be applied by brush, broom or squeegee.

COVERAGE

3 - 5 m²/litre per coat, to achieve a dry film thickness of around 70 - 110 microns per coat, depending on surface roughness.

CLEANING

Tools and equipment can be cleaned with water when still wet. Dried KingProof B25 may be removed with KINGKRETE Solvent.

PACKAGING

KingProof B25 is available in 18 and 200 litre drums.

STORAGE

Shelf life is 1 year when stored under cover, out of direct sunlight and protected from extremes of temperature.

Failure to comply with the recommended storage conditions may result in premature deterioration of the product or packaging. For specific storage advice consult KingKrete's Technical Services Department.

HEALTH AND SAFETY

As with all chemical products, care should be taken during use and storage to avoid contact with eyes, mouth, skin and foodstuffs. Treat splashes to eyes and skin immediately. If accidentally ingested, seek medical attention. Reseal containers after use. Use in well ventilated areas and avoid inhalation.
